INTRODUCTION

I am an experienced content writer and administrator who has fallen in love with writing code. I recently completed a coding bootcamp at Elevation Academy and is looking now for a position as a junior full stack developer. I have created several web apps using the MEAN Stack, customized various API's to serve data to apps, learned about working with MongoDB and mySQL databases.

PROJECTS

The Home Cook - Completed during a hackathon, the app is a marketplace app where we connect hungry users with stay-at-home cooks. This is a *MEAN-based* app built with *AngularJS* that integrates with the *Google Maps API* to show the location of the cooks.

An algorithm a day - My latest project where I write about JavaScript algorithms.

WORK EXPERIENCE

1/4/2010 TO 31/1/2017   Intelitek (RoboGroup)   *Rosh haAyin*

CONTENT ADMINISTRATOR AT AN E-LEARNING COMPANY FOCUSSED ON STEM AND ROBOTICS COURSES

- Responsible for keeping content in various content management systems up to date
- Write procedure manuals and in-house teaching material including updating and STEM user manuals
- QA, edit and troubleshoot online content, coordinate with programmers to solve issues

1/3/2015 to 31/12/2016   52Frames.com

SOCIAL MEDIA MANAGER FOR THE 52FRAMES PHOTOGROUP

- Help to manage and create the weekly albums and emails, welcome new members and troubleshoot various issues
- Co-ordinate with other 52Frames administrators to choose the cover photo and the 2nd and 3rd weekly winners
- Social Media manager including instagram and twitter.

EDUCATION
FULL STACK DEVELOPMENT CODING BOOTCAMP

5/2/2010 TO 10/5/2017   Elevation Academy   *Tel Aviv*

The last three months I have been intensively studying to program at a coding bootcamp where I learned and made the following:

- Computer science fundamentals such as object oriented programming and data-structures and algorithms
- Version control using git and github
- HTML, CSS and Javascript
- Full-scale web apps using MEAN stack
- mySQL and MongoDB as well as schema design with MongoDB
- Customized various API's to serve data to apps
- Played with ReactJS
